SUMMARY

Front-end developer with 5 years of experience designing and building responsive web pages following agile ceremonies. Proficient with HTML, CSS, Angular Framework, with extensive knowledge of UX. Awarded for flawless performance and execution at work.

SKILLS

HTML5 || CSS3 || FlexBox || CSS Grid || Bootstrap|| Angular Material || JavaScript || jQuery || TypeScript || Angular || PrimeNg || Postman || Git || Jira || BitBucket

EXPERIENCE

Altimetrik [Feb 2023 – April 2024]

Citibank
UI Developer

📅 Feb 2023 – April 2024   📍 Chennai, India

- o Developed Angular components ensuring performance and responsiveness following ICG framework, best practices and coding standards.
- o Worked closely with backend developers to integrate frontend components
- o Implemented translations using Angular's built in i18n functionality for different locales
- o Troubleshooted application for issues on routing and fixed using location service
- o Implemented feature for file download using http protocol
- o Worked on reactive forms handling customer details
- o Commited source code using GIT version control and raised pull requests using Bitbucket for peer review
- o Worked on defects and minor enhancements and completed within the timeline and troubleshooted using Chrome debugging tools.
- o Gained experience in writing DML using Oracle SQL when UI stories were less.

Project Technology Stack:
Angular 13, ICG, Figma, GIT, BitBucket, Jira ,SQL

Foray Software [Sep 2020 – Oct 2022]

TCS – Marks & Spencer Project
UI Developer

Sep 2020 – Oct 2022   Chennai, India

- Developed and enhanced primeng tables for M&S Food retail application
- Integrated frontend with backend using JSON data.
- Worked on wijmo datagrid for M&S Clothing retail application.
- Extracted page load data by performance testing the application using JMeter.
- Gained experience on bindings, directives, promises and observables and on commiting source code using GIT version control

Project Technology Stack:
Angular [6, 10], Primeng, Wijmo, GIT, Github, Jenkins, MS SQL, JMeter, Jira

UST Global [July 2019 – Sep 2020]

UI Developer

July 2019 – Sep 2020   Trivandraum, India

- Collaborated with the team on developing mock screens in Angular
- Derived node red as a solution for workflow doing primary analysis
- Created template driven and reactive forms for customer credit details
- Helped the team on applying css for different components
- Worked on minor bug fixes

Project Technology Stack:
Angular 9, Bootstrap, PrimeNg, Gitlab, NodeRed

CAPGEMINI [Feb 2014 – July 2019]

Consultant

2018 – 2019   Bangalore, India

- Developed responsive web pages based on design provided by UX designer for tablets, laptops and desktop using HTML, CSS, Bootstrap
- Worked closely with client to discuss various solutions, issues and timelines
- Collaborated with cross functional teams in integration of user interface
- Pushed the code into git repository
- Tested the application on various laptops and tablets
- Designed a prototype based on the existing application and showcased it to the stakeholders
- Fixed minor bugs which occurred in the application
- Prepared technical design documents for enhancement requests
- Analyzing existing stored procedures and creating new stored procedures
- Configuring SSIS packages
- Mapping and extracting data from SSIS to excel file
- Exported SQL jobs to scripts

Project Technology Stack:
HTML5, CSS3, Bootstrap, jQuery, Drupal, JavaScript, Coldfusion7, MSSQL, SSIS

EDUCATION

Karunya University
B.Tech. Information Technology
Coimbatore
2008 – 2012

AWARDS

- Awarded "**Pat on the back**" for flawless performance and execution at work on **14th August 2023** from **ALTIMETRIK APAC Business Head** – Ranga K Kanapathy and **APAC HR Head** – Krishna Muniramaiah

STRENGTHS

- Open minded, flexible and willing to adapt to changing situations
- Comfortable working with global teams operating across different time zones
